Address: -

Device Information

Device Type: MacBook **Brand:** Apple
Model: MacBook Air **IMEI/Serial:** -
Password/PIN: -
Accessories: Charger, Power Supply, Cable

Repair Details

Problem: MacBook keyboard/topcase issue. Repair is possible, but replacing individual components is not recommended due to high effort and poor cost-benefit ratio.
Damage: No visible damage specified.
Notes: Recommended solution is to replace the complete topcase, including a working keyboard and a relatively new original battery with approximately 100–150 charge cycles. This provides a working keyboard and improved battery condition.
Expected: Jun 15, 2026 **Status:** WaitingForParts
